

Appl. No. 10/621,519  
Amendment dated: August 24, 2005  
Reply to OA of: July 22, 2005

### **REMARKS**

Applicants acknowledge with appreciation the allowance of claims 1 and 3-11. Applicants have made every effort to place the application in immediate condition for allowance and have amended the claims thereto. Claim 2 has been amended as required by the Examiner by adding Y as the substituent intended. In addition, claim 12 has been canceled without prejudice or disclaimer. Applicants most respectfully submit that all the claims now present in the application are in full compliance with 35 U.S.C. §112 and are clearly patentable over the references of record.

The rejection of claim 12 under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention has been carefully considered but is most respectfully traversed in view of the cancellation of claim 12. Accordingly, it is most respectfully requested that this rejection be withdrawn.

The rejection of claim 2 under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention has been carefully considered but is most respectfully traversed.

Applicants have amended claim 2 by adding Y as the substituent intended in the definition of H. Accordingly, it is most respectfully requested that this rejection be withdrawn in view of this amendment.
